as required by

The Producer Responsibility Obligations  
(Packaging Waste) Regulations 2007 (as amended)

*Given under authority of*

THE RT HON JOHN GUMMER MP, CHAIRMAN

STEVE GOUGH, CHIEF EXECUTIVE

### recycling and climate change

In the vast majority of cases, recycling waste is more efficient than producing new products from virgin material. This results in lower emissions of those green house gases that cause climate change. Through the activity undertaken by Valpak, you have directly supported

the recycling of **33** tonnes of material,  
which saves approximately **40** tonnes of carbon dioxide,

the most prevalent green house gas. For more information, please visit [www.valpak.co.uk](http://www.valpak.co.uk)

Your contribution to the PRN System has led to 7,199,103 tonnes of packaging being recovered in the UK in 2009.
